And whereas the said license has expired and the company has applied, in so far as it affects or applies to the foreshore of the Pupuke River, for a fresh license under the Harbours Act, 1923 (hereinafter called "the said Act"), for a further term of three years, and it is desirable to grant the same:

Now, therefore, His Excellency the Governor-General of the Dominion of New Zealand, in pursuance and exercise of the power and authority conferred upon him by the said Act, and of all other powers and authorities enabling him in that behalf, and acting by and with the advice and consent of the Executive Council of the said Dominion, doth hereby approve of the purpose and object for which the said license is required by the company as aforesaid; and, in further pursuance and exercise of the said power and authority, and with the like advice and consent as aforesaid, doth hereby license and permit the company to use and occupy that part of the foreshore which is particularly shown and delineated on plans M.D. 1150 and 1151, so deposited as aforesaid, for the purpose of maintaining thereon the said timber booms erected in accordance with the said plan, such license to be held and enjoyed by the company upon and subject to the terms and conditions set forth in the Schedule hereto.

SCHEDULE.

3. In consideration of the concessions and privileges granted by this Order in Council the company shall pay to the Minister the sum of £1, and thereafter an annual sum of £5, in advance, payable on the 1st day of April each year.

5. The company shall cause the said booms to be constructed so as to provide that there shall be no unnecessary delay in allowing the passage of vessels and boats.

6. Should it at any time be made to appear to the Minister that the means of providing proper passage for vessels and boats are insufficient, the Minister may, by a notice in writing left at or posted to the last known address of the company in New Zealand, require the company to provide such means as may be specified in such notice, and the company shall thereupon with all convenient speed cause such means to be provided.

7. Any such notice shall be sufficient if given by the Minister and delivered at or posted to the last known address of the company in New Zealand.

SCHEDULE.

MARLBOROUGH LAND DISTRICT.

Kaikoura County.—Whernside Survey District.

NATIONAL-ENDOWMENT LAND.

SECTION S.G. Run 107: Area, 18,212 acres. Capital value, £2,665. Half-yearly rent, £66 12s. 6d.

Weighted with £2,745, for improvements comprising eight-roomed dwellinghouse, £700; men's quarters, £200; woolshed, £350; two huts and yards, £80; implement-shed and workshop, £40; sheep-yards, £30; dip, £40; water-supply, £50; old stable and slaughter-house, £10; fowlhouse, £10; bushfelling and grassing £400; 1,300 chains subdivisinal fencing, £650; and half-value of 700 chains boundary-fencing, £350, less £165, being the Crown's interest in subdivisinal and boundary fencing which is included in the value of the land.

The sum is payable in cash or, if the selector desires, terms for payment of £2,550 of the loading may be arranged with the parties interested in the improvements. Any applicant desiring such financial accommodation is advised to communicate at the earliest possible date with the Commissioner of Crown Lands for information regarding terms and conditions of same.

In the opinion of the Land Board it is desirable that applicants should be able to command at least £2,000 in cash, but any application from a suitable substantial applicant will be considered on its merits.

The run, known locally as Waiau-Toa, is situated on the southern side of the Clarence River, and nine or ten miles from the Main South Road at Clarence Bridge. The country is steep and broken, and its height above sea-level varies from a few hundred feet to 4,097 ft., its higher parts being subject to snow in winter. There is tussock and some cocksfoot on the crests of the spurs, with mountain flax, tawhinu, manuka, and birch on the slopes. The eastern face of the run, although steep, carries good soil in places, and is capable of much improvement by felling and grassing. The western face of the run is difficult country to muster and is only dry-sheep country, but it is considered that the eastern face, when made stock-proof and the pigs and wild sheep eradicated, should be good ewe country.

It is estimated to carry in its present state 3,000 strong wethers and 100 head of cattle. Present death-rate in sheep probably up to 10 per cent.

Road access is bad. For about 20 to 30 chains the hillside is slipping into the Clarence River, and it is hopeless trying to keep road open over this slip.

Full particulars may be obtained at this office.

Commissioner of Crown Lands.
