

EXEMPTION FROM TERMS OF NOTICE.

Granting of exemption after appeal.

15. If, after considering the opinion of the Advisory Committee, the Minister is of opinion that exemption should be granted wholly or in part, the Minister shall direct that an exemption from compliance with the requirements of clause 6 hereof be granted to the applicant, and/or a further modified notice under clause 7 hereof be served upon him:

Provided that notwithstanding clause 10 hereof, no application for exemption shall be made upon the service of such further notice.

Minister may grant exemption at any time.

16. The Minister may at any time, either on his own motion or on the application of any owner or user or intending user of interfering equipment, and either at his discretion or after referring the question to the Advisory Committee for consideration and report, and if it appears that, having regard to all the circumstances, it would in any case be unreasonable or inimical to the public interest to require compliance (or full compliance) with the requirements of clause 6 hereof, direct that an exemption from compliance with the requirements of clause 6 hereof be granted to any person.

Terms.

17. Any exemption granted under clause 15 or clause 16 hereof may be granted in such terms as the Minister thinks fit, and subject to such conditions as the Minister thinks proper to impose, and may be for a limited period, and whether expressed to be for a limited period or not may be revoked at any time by the Minister by notice in writing served on the person to whom the exemption was granted.

INVESTIGATION BY RADIO INSPECTOR.

Facilities to be rendered.

18. The owners or users of interfering equipment shall, in the case of any complaint, render the Radio Inspector all reasonable facilities and assistance in order that the cause of the interference may be localized and measures suggested to overcome it.

Interference not general.

19. If in the opinion of a Radio Inspector any interference complained of is not an interference with the conduct of wireless communications in general, but only with those of a particular station, and either—

- (a) Can be eliminated or reduced so as to be negligible by an alteration in or modification of the apparatus of such particular station, or by the addition of any appliance or device thereto; or
- (b) Is accentuated by any defect in or characteristic of such particular station;

then it shall not be incumbent on the Radio Inspector to take any steps under clause 7 hereof.

INTERFERENCE FROM RADIO TRANSMITTING-STATION.

Exemption from regulations.

20. The use of apparatus in a licensed transmitting-station at a transmitting-frequency for the time being allotted thereto under the Radio Regulations, 1932, shall not be deemed a breach of these regulations, notwithstanding any interference caused thereby.

ADDRESSING OF NOTICES, ETC.

Notices to users of interfering equipment.

21. Any notice to be given under these regulations may be served personally upon the person to be served, or sent by registered post addressed to such person at his usual or last-known place of abode or business, or at any place where any interfering equipment may be or have been situate, and if

sent by post shall be presumed to have been delivered in due course of registered post, and shall be sufficient notwithstanding that the person to be served may be deceased or under disability and may not have any legal personal representative appointed.

Applications to Minister.

22. Any application to the Minister may be addressed to him at the General Post Office at Wellington.

PENALTY.

23. Any person who commits a breach of these regulations shall be liable to a fine not exceeding £50.
