NOTE.—A rather cold month, with mean temperature 1.4° below normal. Total bright sunshine, 137.4 hours, which is 45 per cent. of the possible. There was only one day on which the sun did not shine at all. Precipitation amounted to 3.50 in., 15 per cent. below the average for May. A severe and prolonged thunderstorm was experienced on the 21st, accompanied by heavy hail and rain. A few flakes of snow fell on the 22nd. Mean dew-point at 9 a.m., 44.0°; mean vapour pressure, 0.287 in.

NOTES ON THE WEATHER FOR MAY, 1935.

General.—During May there were two periods when fine and mild weather prevailed generally—namely, between the 11th and 15th and from the 25th to the 27th—but the remainder of the month was mostly cold and unsettled, with a predominance of southerly winds. Owing, however, to a particularly favourable autumn, and also to the two mild periods above referred to, there was a good growth of pasture and generally a plentiful supply of winter feed appears available; consequently stock kept in good condition, although the cold spells experienced detrimentally affected the milk-yield and there were also some small losses of sheep.

Temperatures.—Whereas in the preceding six months temperatures were above normal over the greater part of the Dominion, during May there was a definite change to wintry conditions and, except in the far North, temperatures were everywhere below normal, the largest difference being in eastern areas where they ranged between one and two degrees below.

Rainfall.—Rainfall was below the average in parts of the Auckland Province and in the east coast areas between East Cape and Otago, but over the remainder of the Dominion it was above, the excess being greatest on the west coast of the South Island and in the Wairarapa.

Sunshine.—On the other hand, sunshine was generally below normal in eastern districts and above in western, although totals did not differ from May averages. Tauranga registered 183 hours bright sunshine, Nelson 169, Blenheim 155, and New Plymouth 159 hours.

Storm Systems.—On the 1st an unusually deep depression moved on to the Dominion, its centre crossing the southern districts during the night. Pressure remained low to the eastward, however, until the 9th, while an intense anticyclone was moving very slowly across the Tasman Sea; consequently, throughout this period cold southerly winds persisted, reaching gale force in many places.

Between the 4th and 6th conditions were particularly boisterous, a southerly gale being accompanied at times by heavy hail and sleet showers. On the 5th there were heavy snowfalls on the ranges of both Islands and a considerable amount also occurred on the low country. In Taranaki as much as 2 in. fell on the flat in places where snow so early in the winter is almost unprecedented.

By the 9th the front of an anticyclone had moved on to New Zealand and then followed several days fine weather.

From the 16th to the 21st a series of intense westerly depressions crossed the Dominion and strong and squally north to west winds prevailed. Rainfall at this time was confined chiefly to western districts where some heavy falls caused floods in the rivers, particularly in Westland on the 18th and 19th. On the morning of the 20th a violent north-westerly gale which swept Canterbury caused widespread damage to fences and trees and in places even telegraph poles were blown over.

During the night of the 21st the last of this series of depressions crossed the Dominion and another southerly storm swept the country, accompanied by bitterly cold weather. Severe thunderstorms occurred in the Taranaki and Wellington districts on the 21st, and heavy rain and floods were experienced in many parts of these areas. The southerly continued to be strong in the central districts during the 22nd and 23rd. The Wanganui district experienced a severe gale on the morning of the latter day, which caused much damage to trees, fences, power lines, &c.

At Raglan on the evening of the 21st a man was struck by lightning and received serious injuries.

From the 24th until the 28th the weather was fine and quiet, with high pressure ruling. A cyclonic depression was, however, moving from the north down the west coast, and from the latter date until the end of the month dull, misty weather prevailed. Fairly general rain fell during the night of the 28th, and on the 29th some heavy downpours occurred in the Nelson district, Motueka having as much as 5.50 in. at this time.

SCHEDULE.

SECTION 55, Block I, Warepa Survey District, Clutha County.

804 bluegums (*Eucalyptus Globulus*) .. Board Feet. 270,000.

Upset price: £270.

Time for removal: One year and a half.

General Description.

The plantation is situated on the above section, which is five miles from Warepa Railway-station. The access-road is practically all metalled (except about a quarter of a mile), and contains one mile of steep grade. The whole area could be logged very satisfactorily by means of a traction-engine. The timber is considered suitable for milling for gates, hurdles, bridge-decking, and mining-props, and a fair proportion for temporary piles.

Terms of Payment.

The purchaser of the timber will be required to pay to the Receiver of Land Revenue, Dunedin, one-third of the purchase-price on the fall of the hammer, together with £1 1s. license fee. The balance will be payable by two equal instalments, the first within six months and the second within twelve months thereafter.

All instalment payments shall bear interest at the rate of five per cent. per annum as from the date of purchase, and with the interest added shall be secured by "on demand" promissory-notes endorsed by two approved sureties. The promissory-notes are to be completed and lodged with the Commissioner of Crown Lands within fourteen days after the purchaser has been notified to complete.

Conditions of Sale.

1. The right to cut and remove the timber will be sold in accordance with the provisions of the Land Act, 1924, the regulations in force thereunder, and these conditions, and such additional conditions as the Commissioner of Crown Lands considers necessary in the interests of the Crown or of the public.

2. The promissory-notes will be presented at intervals as indicated above, but they may be presented for payment at earlier dates if more than a due proportion of the timber is found to be cut or should any breach of the conditions occur, or if, in the opinion of the Commissioner of Crown Lands, the interest of the Crown is jeopardized.

3. Intending purchasers are expected to visit the locality and to satisfy themselves in every particular on all matters relating to the sale.

4. The right is reserved to the Commissioner of Crown Lands to withdraw this timber from sale before or after the date fixed for the auction.

5. For the purposes of this sale the foregoing description of the timber shall be taken as being sufficiently accurate as to quantities, qualities, and species; and no contract for the purchase of the timber shall be voidable, nor shall the purchaser be entitled to any abatement of price, by reason of any error or misdescription herein, or in any advertisement having reference to this sale; nor shall any extra sum be claimed by the Crown if the quantity of timber is found to be in excess of that stated herein.

6. All the timber, whether standing, felled, or in logs, shall remain the property of the Crown until the purchase of same has been completed.

7. Should any dispute arise as to any boundary, the decision of the Commissioner of Crown Lands shall be final.

8. If the timber is unsold at this offering, the right to purchase same at the upset price will remain open until further notice.

9. Any breach of the conditions of sale will render the "on demand" promissory-notes liable for presentation for immediate payment.

10. The purchaser shall have the right to cut the timber for the period specified, but shall have no right to the use of the land.

11. The purchaser shall have the right to construct and use on the land such tramway or tramways as may be found necessary for the proper cutting, milling, and removal of the timber.

12. If at any time during the currency of the license it should appear that the timber on any area is being improperly cut, or that the interest of the Crown or of the settlers is being prejudiced, or for any other reason, the Commissioner may, by notice in writing to the licensee and his sureties (and without prejudice to any proceedings for damage done, recovery of any amount due on account of royalty, or otherwise) suspend the license pending investigation; and the Commissioner may cancel such license should it be found that its conditions have been infringed.

13. No compensation shall be made, nor shall any be claimed, for any error or discrepancy in these conditions, or for any misdescription of any lot.

14. The timber will be sold in accordance with the areas and boundaries shown on sale-maps which may be seen at the District Lands and Survey Office, Dunedin, where full particulars may be obtained.
