“(b) In the event of either the licensee or Westland Power, Limited, by writing, requesting the other of them to make dead any line or lines supported by any such pole to enable construction or repair work to be carried out safely, such line or lines shall be so deadened at such time or times as may be agreed upon, and, failing agreement, in case of emergency within twelve hours, and in any other case within seven days, after receipt of such written request ; and no charge shall be made in respect of such deadening ; but the licensee shall not be required to deaden both lines at the same time, except in cases of extreme emergency.
