#### 2. License subject to Regulations

This license is issued under the Water-power Regulations, 1934, and is subject thereto and to the Electrical Supply Regulations, 1935, and to any regulations made or to be made in amplification or amendment thereof or in substitution therefor.

## 3. Utilization of Water and Location of Headworks.

Water shall be used under this license solely for the purpose of generating electricity up to a maximum capacity of 2 kilowatts, and shall be taken from the river at the point opposite the western boundary of Section 2, Block IX, Purua Survey District, indicated on the plan marked P.W.D. 94903, deposited in the office of the Minister of Public Works.

## 4. General Description of Works.

The licensee is hereby authorized, subject to the conditions hereof, to construct, maintain, and use the following works for the purposes of this license, the positions of the said works being indicated on the said plan P.W.D. 94903:—

- (a) Headworks consisting of a dam and intake and water-race and pipe-lines leading to the water-wheel and power-house hereinafter referred to, giving a static head of approximately 12 ft.

  (b) Tail-race leading from the said water-wheel to the Mangere River.
- (c) A power-house with all necessary equipment, including water-turbines, generators, transformers, lightning-arresters, switchboards, switches, exciters, and other appliances for generating electricity.

#### 5. Duration of License.

Unless sooner determined, this license shall continue in force until the 31st day of March, 1958.

#### 6. System of Supply.

The system of supply shall be as described in paragraph (j) of clause 21–01 of the Electrical Supply Regulations, 1935. The generating and transmission voltages shall be approximately 110 volts direct current.

For the purpose of assessing the annual rental payable in respect of this license, the licensee may install a suitable maximum-demand indicator to the satisfaction of the Inspecting Engineer of the Public Works Department, and, failing such installation, the rental shall be assessed on the maximum generating capacity of the plant installed. The present plant is rated at 2 kilowatts, and falls within the classes described in accordance of the Works. in paragraph (b) of clause (2) of Regulation 6 of the Water-power Regulations, 1934.
