

Number and Title of Specification

DZ 4224 Code of practice for civil engineering quantities. \$5.00.

This draft closely follows Australian Standard AS 1181: 1962, Method of measurement of civil engineering works and associated building works. Several sections of the Australian Standard are appropriately covered under NZS 4202, Methods of measurement of building works, and have therefore been omitted. Practice for measurement of civil engineering works is defined.

Where building trades form more than a minor proportion of the works, it is recommended that their measurement conforms to NZS 4202.

All persons who may be affected by this publication and who desire to comment thereon, may obtain copies at the price shown, from the Standards Association of New Zealand, Wellington Trade Centre, 15-23 Sturdee Street (or Private Bag), Wellington.

Note—Payment must accompany all requests for drafts.

The closing date for receipt of comment is 26 November 1982.

Dated at Wellington this 25th day of August 1982.

DENYS R. M. PINFOLD,
Director, Standards Association of New Zealand.
(S.A. 114/2/8).

Tariff Notice No. 1982/176—Application for Variation of Approval

NOTICE is hereby given that an application has been made for variation of a current approval of the Minister of Customs as follows:

Port	Appn. No.	Tariff Item	Goods	Rates of Duty		Part II Ref.	Concession Code	Effective	
				Normal	Pref.			From	To
		85.11	CURRENT APPROVAL: Machines, electric welding EXCLUDING: (1) A.C. manual arc welding machines having a maximum welding output of 620 amps or less; (2) M.I.G. welding machines having a welding output of 520 amps or less at 60% duty cycle or 430 amps or less at 100% duty cycle; (3) T.I.G. welding machines having a maximum welding output of 250 amps or less; (4) Resistance welding machines having a 50% duty cycle rating of 25 kVa or less	Free	Free	10	201966D	1/7/78	30/3/85
WN	2052	85.11	REQUESTED APPROVAL: Machines, electric welding; EXCLUDING: (1) A.C. manual arc welding machines having a maximum welding output of 620 amps or less; (2) M.I.G. welding machines having a welding output of 520 amps or less at 60% duty cycle or 430 amps or less at 100% duty cycle; (3) T.I.G. welding machines having a maximum welding output of 250 amps or less; (4) Resistance welding machines having a 50% duty cycle rating of 25 kVa or less; (5) Portable welding equipment designed to operate independently from mains power, e.g., arc welder mounted in a vehicle using that vehicle's engine as the power supply						

The identification reference to the application number indicates the office to which any objections should be made.

WN—Collector of Customs, Wellington.

Any person wishing to lodge an objection to the granting of this application should do so in writing to the appropriate office as indicated by the identification reference on or before 23 September 1982. Submissions should include a reference to the identification reference, application number, Tariff item and description of goods concerned and be supported by information as to:

- The range of equivalent goods manufactured locally;
- The proportion of New Zealand and imported material used in manufacture;
- Present and potential output; and
- Details of factory cost in terms of materials, labour, overhead, etc.

Dated at Wellington this 2nd day of September 1982.

P. J. McKONE, Comptroller of Customs.
